

# **Don't settle for a wand cleaning... Insist on the Rotovac!**

Why settle for a wand cleaning?  
A manual wand carpet cleaning  
relies on the limited strength  
and stamina of  
the operator  
and only  
cleans from  
two directions  
(Back and Forth).

Our Rotovac cleans your carpet  
from all directions with 1500  
mechanized cleaning  
passes per minute.  
With our patented  
Rotovac process  
your carpets will  
look, feel and stay  
cleaner longer!
